

SO SIMPLE, SO EFFICIENT SO STRYME

INNOVATIVE. UNIQUE. COST-EFFECTIVE.

STRYME drives broadcast innovation with new flagship products to step up workflows, boost live sports broadcasts and post-production.

GENESIX VIDEOSERVER V8

- ✓ 16 CHANNELS IN 2 RACK UNITS
- ✓ IP SIMPLIFIES INFRASTRUCTURE NEEDS
- ✓ EBU R128 & ATSC A/85 LOUDNESS NORMALIZATION

BRODSTAR PROGRAM DISTRIBUTION MONITORING

- ✓ COMPLIANCE RECORDING AND LOGGING
- ✓ REAL-TIME ANALYZING TOOL
- ✓ FULL AUTOMATION WITHOUT RUNNING COSTS

TUBICON CLOUD-BASED BROADCASTING

- ✓ ONE CLICK ON-AIR
- ✓ RENT-A-CHANNEL
- ✓ REASONABLE PRICES

Ultra-slim for OB-VANs and many great perks: time-saving Transfer While Capture or Edit While Capture for simultaneous and frame-accurate Multi-Cam Ingest.

IP supports multiple protocols and the dual SFP+ cages come with 4 video inputs/outputs over 10 GbE. Plus, no more loudness war.

STRYME's automated solution for 24/7 fail-safe multi-channel broadcast program distribution monitoring, recording and logging. Check, compare and adjust digital delays and time lags.

One system boosts compulsory compliance recording, broadcast quality and availability.

From playlist creation to delivery and archiving, you'll be on cloud nine!

Reach out to your audience with a light and lean state-of-the-art channel on YouTube or in social media. Whether live stream or program content, it's simply set up, affordable (rent or buy), and requires no special skills.

WOW YOUR BROADCAST
